

Chords, clouds, masses, continents, tutti-frutti #1

Play a sound or event -- about the duration of a breath

 Begin at the same time as the rest of the ensemble

 End at the same time as the rest of the ensemble

Pause -- about the duration of the sound or event that was just played -- and decide what to do next:

 If you liked the resulting sound, repeat your part of it or rest

 If you didn't like the resulting sound, play a different note or event or rest

The piece is over when there are no more changes made or no one remaining playing
